

## ExpertArc Series 1100 - Dual Station

### Simple. Stable. Ready to Weld

The ExpertArc ST-1100 gives manufacturers a straightforward way to weld larger, heavier parts without adding unnecessary complexity. With a stationary worktable and generous work envelope, it provides a stable platform for fixtured parts and repeatable production.

This pre-engineered system is built for reliability, uptime, and consistent weld quality. It's simple to run, ready to go, and delivers the kind of performance that makes automation worth it.

Whether you're scaling production or automating larger weldments, ExpertArc ST-1100 gives you the capacity and confidence to do it right.

### Welding automation is worth doing right.

#### SMART FEATURES. PROVEN BENEFITS.

##### > Compact footprint

Fits into tight shop floors and smaller production cells.

##### > Simple to run

Your team doesn't need to be robot programmers. Operators can run it with minimal training.

##### > Fast to deploy

Pre-configured, pre-tested, and ready to weld. You're up and running in days, not months.

##### > Consistent, high-quality welds

Clean, repeatable results every time. No guesswork. No surprises.

##### > Less downtime

Easier part loading, simpler programming, and fewer headaches in production.

##### > Stable part positioning

Stationary worktable keeps fixtures secure and parts consistently located through every weld cycle.

##### > German engineered. American built.

Precision and reliability, backed by decades of CLOOS welding expertise.
