

ExpertArc Series 1100 - Dual Station

Dual-Axis Positioning. Maximum Flexibility.

The ExpertArc DA-1100 gives manufacturers a practical way to automate welding for medium-to-large weldments. With a dual-axis positioner and 1,100 lb capacity per station, it provides the tilt and rotation needed to reach multiple weld angles without constant repositioning.

Built for repeatability and uptime, the DA-1100 delivers consistent weld quality while keeping production moving. It's simple to run, ready to go, and built to make automation worth it.
